

# July 2024 Library Newsletter

On this month's episode we are giving you 12 tips on choosing an academic research Topic.

| Tips  | Description  |
|---|--|
| <b>#1</b><br>Identify Interests             |  Choose a topic that genuinely interests you to maintain motivation throughout the research process.      |
| <b>#2</b><br>Review Existing Literature     |  Conduct a literature review to understand current research trends and identify gaps in the field.        |
| <b>#3</b><br>Consult with Advisors          |  Seek guidance from your advisor or mentors who can provide insights and suggestions based on experience. |
| <b>#4</b><br>Consider Feasibility           |  Assess the availability of resources, data, and time required to complete the research.                  |
| <b>#5</b><br>Define Scope Clearly           |  Ensure the topic is neither too broad nor too narrow, and clearly define the research question.          |
| <b>#6</b><br>Check Relevance and Impact     |  Choose a topic that is relevant to your field and has potential for significant contribution or impact.  |
| <b>#7</b><br>Align with Career Goals        |  Select a topic that aligns with your long-term academic and professional goals.                          |
| <b>#8</b><br>Evaluate Originality           |  Aim for a topic that offers a unique perspective or addresses an underexplored area.                     |
| <b>#9</b><br>Seek Interdisciplinary Options |  Consider interdisciplinary topics that can provide a broader perspective and more opportunities.         |
| <b>#10</b><br>Be Flexible                   |  Be prepared to refine or adjust your topic based on initial research findings and advisor feedback.      |
| <b>#11</b><br>Consider Ethical Issues       |  Ensure the topic complies with ethical standards and guidelines in your field.                           |
| <b>#12</b><br>Check Resource Availability   |  Verify access to necessary tools, databases, and funding required for the research.                      |

We hope this guides you well on your research journey.
